NARRANDERA SHIRE COUNCIL

Chambers: 141 East Street Narrandera NSW 2700

Email: council@narrandera.nsw.gov.au

Policy No: POL120

Policy Title: Project Management

Section Responsible: Projects & Assets

Minute No: 735723

Doc ID: 8422

1. INTENT

The purpose of this policy is to ensure project management at Narrandera Shire Council is guided by sound and consistent administration and management practices.

2. SCOPE

This policy applies to all projects undertaken by staff, whether approved by the Council's elected body or General Manager. It is inclusive of all grant funded projects, which are to be implemented in accordance with a set objective, a cost parameter and timeframe within the Narrandera local government area.

3. OBJECTIVE

Council will provide the best outcomes to the community by ensuring consistent and successful project delivery by:

- making sure that all projects identified by Council are subjected to appropriate project management governance
- providing a single corporate-wide framework, guiding users through the project management lifecycle, processes, activities, and documentation
- undertaking projects that align to Council's strategic plans and are allocated the appropriate resources and funding
- ensuring projects are only commenced after an appropriate level of due diligence has been undertaken, with a view to minimising risk and achieving the best use of Council's resources.

4. POLICY STATEMENT

Narrandera Shire Council is committed to effective project management through clearly defined processes which enable staff to manage projects efficiently and effectively and measure project outcomes.

5. PROVISIONS

5.1 PROJECT MANAGEMENT TERMINOLOGY

Activity	An element of work performed during the course of a project. An activity has an expected duration, cost, and resource requirements. Activities can be subdivided into tasks.

5.2 RISK MANAGEMENT

Mechanisms are in place to ensure that program management systems are effective and regularly monitored.

Other risk management actions include:

- Risk management considerations are embedded into project planning.
- Project plans are appropriately monitored and controlled by the allocated staff member.
- Narrandera Shire Council ensures that projects have a sound theoretical base, are ethical and promote evidence-based practice.
- Staff are provided with ongoing support to assist them to develop, implement and evaluate projects effectively.
- The need for improvements in organisational program, projects or events can be identified by any Councillor, management, staff member or client, either through feedback or by the application of quality monitoring systems.
- All projects will align with the Office of Local Government Capital Expenditure Guideline requirements.

5.3 PROJECT MANAGEMENT GOVERNANCE

Not all projects require high and complex levels of governance, documentation and reporting. The aim of this section is to provide staff with guidance that can be adapted to suit the needs and requirements of each project to ensure:

- Projects align and contribute to Narrandera Shire Council's strategic and operational priorities
- Appropriate authorisation is established
- Appropriate project governance and control is established and maintained
- Projects are effectively managed within the parameters of scope, quality, resources, and risk
- Post implementation reviews are conducted and actively used to strengthen project delivery and to enhance project management communication and learning across the organisation.

5.4 PROJECT MANAGEMENT FRAMEWORK

Projects will be categorised and managed utilising a three-tiered project management governance framework.

Category	Threshold/Criteria (Refer to Descriptions)	Project Management Governance Framework
1. Minor	Simple projects <100K	 Basic scope and Request for Quote (RFQ) documentation
2. Standard	Medium complexity projects <250K	Project Proposal / Plan – Standard ProjectScope adequate for RFQ
3. Major	Complex projects >250K	 Detailed Project Proposal Project Plan - Major Project Risk Plan - Major Project Project Management Working Group Detailed tender documentation

5.4.1 Initiation and Start Up

- Projects require a Project Proposal to be prepared and approved by the relevant delegated authority/authorities prior to the project being initiated. The Project Proposal can be just a scoping document (minor projects) a brief (standard projects) or detailed (major projects).
- Where a project involves new business, programmatic activity, or public advocacy, a risk assessment is to be undertaken. For standard projects, this can be contained within the project proposal, however major projects will be likely to require a detailed risk assessment.
- Council authorisation is not required if the project is clearly within the scope of Narrandera Shire Council's strategic and financial plans. In principle support to proceed is required where the GM/DGM deems the project to:
 - o Be outside of the organisation's strategic or financial plans; and/or,
 - Amount to significant new business.
- Upon approval of the Project Proposal:
 - A Project Sponsor and Project Manager will be allocated. Major projects require an Executive Team member to act as the Project Sponsor for the duration of the project.
 - An appropriate governance structure will be established, including linkages to external governance structures where appropriate. Major Projects require a Project Governance Body to be established (eg: Project Management Working Group).
 - A budget will be allocated and the project included in the Narrandera Shire Council's Long Term Financial and Delivery/Operational Plans.
- Where a project is delivered in partnership with another organisation or funding body, a Memorandum of Understanding (MOU) (or similar agreement) is required and must be signed by the relevant delegated authority from Narrandera Shire Council and the partner organisation.

5.4.2 Planning and Design

- Projects require a Project Plan to be prepared and approved by the relevant delegated authority/authorities prior to the project being implemented. In most cases a minor project will only require a project scope, which can be approved in accordance with the relevant delegated authority. The Project Plan can be brief (standard projects) or detailed (major projects). Refer to Project Management Procedure for further guidance. Some projects may require an external template to be used.
- An Evaluation Plan is recommended for large projects and projects aiming to achieve practice change. Refer to Project Management Procedure for further guidance and to Project Management Lifecycle for the additional documentation considerations at the planning and design phase.
- Projects require appropriate stakeholder engagement to be undertaken during the planning and design phase to ensure the project is acceptable to and meets the needs and requirements of intended beneficiaries, this is to be undertaken in accordance with Council's Communication policy.

5.4.3 Implementation

 Projects will be managed using an acceptable project management methodology throughout the project lifecycle, including arranging activities and tasks into a

- workable sequence, and measuring outcomes/performance against established baselines/indicators.
- All projects should utilise Council's designated project management system to assign project tasks and responsibilities, track milestones, and record communication among the project team.
- Relevant stakeholders shall be advised of the implementation of the project through appropriate communication channels, and where appropriate, user acceptance testing undertaken to ensure project deliverables are acceptable to and meet the needs and requirements of intended beneficiaries.
- A record of all project materials shall be recorded and be stored electronically in the project specific folder in the Council's record management system, in hard copy with the Project Manager, and later archived.

5.4.4 Monitoring and Control

- Projects shall employ appropriate techniques and processes for monitoring and controlling project parameters including scope, quality, resources (time and budget), and risk. As a minimum:
 - Council's designated project management system shall be utilised to monitor and control the project schedule and record issues, risks, and variations to the Project Plan.
 - Expenditure will be monitored through utilisation of the Budget Tracker.
 - Progress and final reporting, which measures progress/outcomes against budget, milestones, benefits, risks and other metrics, will be prepared by the Project Manager and submitted to the Project Sponsor and relevant governance body/bodies as required. The Progress/Final Report can be brief (small projects) or detailed (large projects). Refer Project Management Procedure for further guidance.
 - The management and reporting of some projects may additionally be guided by specific funding or contractual agreements.
- The Project Management Lifecycle identifies the additional documentation considerations during the monitoring and control phase.

5.4.5 Closure

- Projects require and Post Implementation Review Report to be completed and authorised by the relevant delegated authority/authorities prior to closing the project.
- The Post Implementation Review Report shall report on, as a minimum, project outcomes and benefits, recommendations, lessons learned, and any outstanding actions.
- Findings from the post implementation review should be communicated to the team, organisation and Council as appropriate.
- Where results demonstrate positive outcomes, every effort should also be made to promote the results broadly through conference presentations, journal articles, etc.
- Upon completion and acceptance of the Post Implementation Review Report, the Project Manager shall:
 - handover any outstanding actions to person/people responsible for ongoing support and maintenance of project deliverables and outcomes, where relevant
 - o dissolve the project team and project governance body/bodies, where relevant
 - o audit and archive project documentation, as required.
